

WSPS: 🏛️ Organizational Structure

Division I: The Directorate (Administrative)

The Backbone.

- **Primary Function:** Infrastructure, Governance, & Logistics.
- **Motto:** *"Adherence to Mission."*
- **Responsibilities:**
 - **Infrastructure:** Maintaining the GitHub repository ([index.html](#), [wsps_online_form.html](#)) and the Google backend.
 - **Logistics:** Printing the *Field Researcher Instruments*, purchasing clipboards/tablets, managing the [media](#) assets.
 - **Governance:** Ensuring all research adheres to the "Methodological Agnosticism" and ethical standards (IRB compliance).
 - **Staffing:** Assigning Researcher IDs (e.g., [FW-01](#)) and training new recruits on the "Anti-Priming" protocols.

Key Personnel:

- **Executive Director:** Final decision-maker on publication and mission strategy.
- **Operations Manager:** Handles the "physical" side (printing, travel logistics).
- **Web Administrator:** Manages the HTML code, Google Scripts, and Data Log security.

Division II: The Registry (Centralized)

The Brain.

- **Primary Function:** Analysis, Coding, & Archival.
- **Motto:** *"Preservation of Experience."*
- **Responsibilities:**
 - **Ingestion:** Monitoring the Data Log for incoming "Status 1/2" (Web) and "Status 3" (Field) entries.
 - **Reconciliation:** Matching physical Clipboard Forms to digital timestamps.
 - **Coding:** Applying the *Coding Cheat Sheet* logic (Type A vs. Type B).
 - **Library:** Maintaining the Bibliography and cross-referencing modern reports with historical folklore.

Key Personnel:

- **The Registrar:** Head of the Archive.
- **Senior Analyst:** Codes the narratives.
- **Data Steward:** Cleans and anonymizes the Google Sheet.

Division III: Field Research (Mobile)

The Eyes & Hands.

- **Primary Function:** Acquisition & Engagement.
- **Motto:** "*Observation without Interference.*"
- **Responsibilities:**
 - **Deployment:** Visiting liminal spaces, community hubs, or reported anomaly sites.
 - **Engagement:** Administering the *Experience Questionnaire* to subjects.
 - **Observation:** Filling out the *Data Collection Instrument* (Weather, Demeanor, Physics).
 - **Safety:** Executing the *Debriefing Protocol* to ground subjects.

Key Personnel:

- **Field Coordinator:** Assigns teams to specific geographic sectors.
- **Field Researcher:** The agent on the ground collecting data.

The Operational Workflow

1. **The Directorate** prepares the kit: They upload the latest `wsps_online_form.html`, print a stack of *Data Collection Instruments*, and issue a badge to a new Researcher.
2. **Field Research** deploys: The Researcher goes to a site, interviews a subject, and captures a "Status 3" event.
3. **The Registry** processes: They receive the data, match the timestamp, code the event as "Type B (Techno-Mysticism)," and archive it.
4. **The Directorate** reviews: The Director reviews the Annual Report generated by The Registry to ensure the project is meeting its goals, then authorizes the budget for the next phase of fieldwork.
